

Extremely simple,
extremely quick –
the Nordisch Online Service

Our promise:
24 hours,
7 days a week.

Charging technology from Nordisch –
ready when it really matters!

SPARE PART ORDERS

By using the Nordisch spare parts service you can find detailed exploded views of various devices online – you can use the images to select all of the individual parts you would like to order. And you can be certain that you will receive exactly what you need.

Or can you not find your device online?
No problem! Please get in touch and we'll sort it out.

REPAIR REQUEST

You will find our Nordisch repair request form via the quick-service on our homepage – around the clock! No matter whether it relates to pneumatic, hydraulic, electronic or battery technology: simply select the relevant option and send us an enquiry.

Our team will get to work on a quotation or get in touch with you directly as soon as your enquiry is received.

The most important features at a glance:

<p style="text-align: center; background-color: #0070C0; color: white; padding: 5px;">POWERFUL & STABLE</p> <p>Top quality workmanship and the careful selection of all components guarantee longevity and simple product handling. "Made in Germany" of course!</p>	<p style="text-align: center; background-color: #0070C0; color: white; padding: 5px;">CENTRAL MONITORING</p> <p>Charge multiple batteries simultaneously and check their condition at the same time, for seamless operation. Through monitoring it is possible to detect and evaluate faults, and plan long-term use with foresight.</p>
<p style="text-align: center; background-color: #0070C0; color: white; padding: 5px;">ESPECIALLY FLEXIBLE</p> <p>Modular technologies are suitable for use in challenging or harsh environments. Also possible here are watertight housings, shockproof devices and other functional expansions.</p>	<p style="text-align: center; background-color: #0070C0; color: white; padding: 5px;">COMPREHENSIVE SERVICE</p> <p>Utilise intelligent, sophisticated technologies – tailored to your requirements and developed by our experienced experts. Additionally benefit from the dependable Nordisch service.</p>

Charging technologies for risk areas

- Socket and heavy current adapter**
Optimise your workload with the voltage flexibility of our systems.
- Look to the future**
Your charging system is updatable and suitable for future battery technology.
- No interruptions**
Save time and money thanks to fault-free production processes. Our modern charging technology thinks ahead and informs you of potential failures in good time.
- Regular and critical consumption**
You are also protected against all eventualities during continuous use.
- More time for the essentials**
We've always got your back, with simple maintenance and outstanding service.
- Powered continuously**
Our products stand for constant functionality, the maximum in operational readiness and exceptional resilience – irrespective of the working environment.
